

PROOF BEFORE CAPITAL

VERIFIED PATH

One verified path

The broker receipt, not the transport response, decides what is true.

STRUCTURE	LIMIT / FILL	BROKER ORDER	CLIENT ID	RESULT
SELL 740P BUY 724P	-2.26 / -2.26	24b16fe6...	oc-63db2a...	price-bound MATCHED

Authorization follows the payload

The model has no route to contracts, quantity, limit price, or execution.

BYTE-BOUND

Any change invalidates the certificate

- symbol
- side or intent
- leg ratio
- quantity
- limit price

ZERO-RESUBMIT

1 MCP submit

0 resubmits

Unknown response: GET the same client ID or HALT

Broker paper results

Actual fills stay separate from modeled research and from the open position mark.

STRUCTURE	ENTRY	BROKER STATE	RESULT
793C / 809C	filled -2.11	closed through MCP	+\$58 approx.
768C / 769C	filled -0.51	closed through MCP	-\$2 approx.
740P / 724P	limit -2.26	price-bound MATCHED	open at Sep 1 snapshot
CLOSED-SPREAD REALIZED P&L		SEP 1 COMMITTED CLI SNAPSHOT	
+\$55.67		\$100,036.62 equity	
		-\$19.00 open unrealized P&L	

Decision rights

One stance from AI. Every capital decision remains deterministic and broker-verifiable.
